

4 year olds 4 year olds

Our 4-year-old program is designed to engage your child in an active hands-on approach to learning. The classroom is designed with learning centers for free exploration that include math, manipulatives, science, art, dramatic play, language arts and sensory skills.

Our circle times include calendar, American flag pledge, weather, prayer, music and movement, theme related listening, language, motor development, theme related story and Bible time.

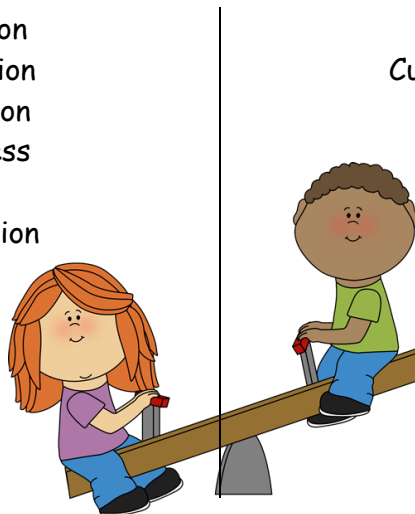

Our Bible curriculum gives the children the opportunity to grow in their faith and relationship with God, which includes weekly chapel lead by Pastor Ray. It was developed to give the children the opportunity to grow in their faith and relationship with God.

Our alphabet curriculum is Zoo Phonics. This series provides an interaction with Zoo Pals from A to Z building your child's vocabulary, recognition, sound and written experience of each letter.

To enhance your child's mathematical, patterning understanding and concepts we provide lessons from Saxon Math

Additional skills taught in our 4-year-old program are:

- Name recognition
- Letter Recognition
- Shape recognition
- Spatial awareness
- Opposites
- number recognition
- Fine motor skills
- Group speaking
- Active listening
- Conflict resolution
- Self-help skills
- Following directions

- Name writing
- Cutting with scissors
- Rhymes
- memorization
- Counting
- Large motor skills
- Independent thinking
- Communication skills
- Cause and effect
- Developing social skills
- Problem solving

We recognize that your child will learn these skills when he/she is developmentally ready. If an additional year of preschool is needed, we offer a transitional pre-k class.
