

Infants

Hi my name is Scarlett, I am six months old and adorable! I would like to tell you about my day at Resurrection Child Development.

I am a student in the “Little Guppies Infant Class” My older cousin Alexa was also a student in the same class with many of the same teachers!

The morning begins with a warm smile and hugs from all my teachers while they greet me and my mother! Mommy signs me in, puts my name on the daily sheet that lets her know how much I ate, at what time and how often my diaper was changed when she picks me up. My teachers are very organized and always write everything down that concerns me and every child in my class, this also makes it easy for them to communicate with each other about us! The teachers work as a team, we get to know and love each teacher!

My teachers also communicate directly with all the parents to meet our specific and individual needs. I like my bottle every 2 hours, but my friend Landon likes his bottle every 3 hours. My mommy has all my bottles prepared and labeled with my name and the current date on it. When it’s time for my bottle, my teacher just goes to the refrigerator, gets my bottle and warms it up for me! If I run out of milk, there is always extra in either the freezer or the pantry for emergencies.

My teachers have so much fun, they really like to play, sing, dance and read to us! But my favorite is when they blow bubbles.

Our teachers like to change me every two hours unless I have a poop! Then I am changed right away! Sometimes, I may get my clothes soiled, but that’s okay because I have my very own bin with my name on it that includes the essentials like: diapers, diaper cream, extra clothes, crib sheets and my blanket! So even after a messy diaper change, I am still comfortable and cozy!

I think one of my favorite times of the day is lunch and nap time. For lunch, the teachers prepares the food that my mommy provides for me. I get to sit with a teacher while she feeds me in my high-chair. I like my onesie pajamas on and then cuddle with one of my teachers while she rocks me to sleep listening to soft lullaby music playing in the background. After I fall asleep, I get put in my own crib that is also labeled with my name.

I love my childcare providers at Resurrection Child Development and my mommy and I trust them. I know that I will be well taken care of and that my teachers get to know me as an individual unique person with specific needs, likes and dislikes

My mommy likes my childcare providers because they genuinely care about me and she appreciates the honest, open communication regarding me and my emotional, physical, social and cognitive development!
